

### Rear Tugger Application Chart

**Note: not all bikes are listed - we just can't measure all bikes out there. So...**

**If your bike has two rear seat mounting bolts, one on each side of the seat, get the Style 1.**

**If you have a KTM with the single under-seat bolt, get the Style 1 unless otherwise listed!**

**If you see your same model, but a different year, chances are good the style listed will work.**

**If you get one and it doesn't work, send it to us for a full refund.**

**If you are wondering about a FRONT Tugger, the Style 2 (Original or Extreme Enduro) works for all bikes.**

**If you are wondering about "Adjust length" column, it's just for us when we do custom embroidery.**

**The "Extra plastic spacers" are to space out the bushing so the buckle clears the recess in the plastic.**

Make	Year	Model	Style	Adjust Tugger length to..., inches	Extra plastic spacers?	Notes
